Dear Members of the Board of TTK Co., Ltd. and Mr. Mikio Doi ("TTK"),

Thank you for your extraordinary leadership of TTK. We write in response to the Announcement of Business Integration and Execution of Share Exchange Agreement between MIRAIT Holdings Corporation and TTK Co., Ltd made on April 27, 2018.

We applaud the business integration of TTK with MIRAIT Holdings. We truly believe that this will create many useful synergies and help TTK, together with MIRAIT Holdings Corporation, to expand its businesses and strengthen its operating foundations as an integrated and comprehensive engineering and services company. We also believe that this news has been extremely well-received by other shareholders.

Through our engagement with TTK, if there is one thing that we have observed, and that which has to be emphasized, it is that the board and senior management of TTK has been very progressive and very willing to listen, respond and act on the concerns of its shareholders. TTK is fortunate to have such a professional board and senior management that is not only thoughtful but yet also courageous to effect change. We applaud the TTK's board and senior management for their unwavering commitment to create shareholder value. TTK is a great company any we sincerely believe that it will continue to thrive in its new corporate form.

We feel an unwavering responsibility and commitment to assist TTK, its board and senior management in its future endeavors. We strongly believe and continue to believe in the quality of product and service that TTK offers and of its demand in the Asian markets that we have business networks in; however, we note that TTK's business integration with MIRAIT Holdings is not a small undertaking and is a process that will require meaningful board and senior management attention and resources. As such, we will let TTK seek the integration and further development in the field of information and communications engineering work it desires with MIRAIT Holdings Corporation and refrain from requesting that TTK expand into Asia. We believe that this integration has somewhat successfully addressed our prior concerns. We note that MIRAIT Holdings has operations overseas and perhaps when the time is right, TTK would cooperate with MIRAIT Holdings in this regard to realize useful synergies in market expansion.
